# Music for Your Special Event

Whether you enjoy classical or contemporary music, the cello sets the mood for your special day. Available for your ceremony and dinner reception, the cello offers many sonorous qualities and brings something extra special to your event. With your signed contract, we include a “zoom” meeting to discuss your song choices and event requirements.

## Indoor or Outdoor

With the popularity of micro-weddings, we can accommodate an indoor or outdoor ceremony and dinner reception.

The sound will be amplified based on the setting, and background tracks are added for complete music production. Power is required for amplification. Custom song requests are available.
